GERMANS CLAIM TO HAVE SUNK 111 STEAMERS.

The Mittag Zeitung, which is publishing the official reports of the German admiralty, announced yesterday that the list of British, French and Russian steamers sunk by the German navy to date includes 111 names, with a total tonnage of over 400,000. In addition, according to Mittag's summary, the German navy has sunk four auxiliaries, eight mine sweepers, one troopship and two sailing vessels of the enemy.

Boy Scouts off on 3-Day Encampment

The Boy Scouts of Honolulu made a gallant sight as they marched through the city yesterday on their way to a three-day encampment at Kaneohe after being formally reviewed by Governor Pinkham. Some of the scenes are shown herewith. The picture above shows the Scouts all ready for their hike. On the right the Scouts are being reviewed in front of the capitol by Governor Pinkham. Standing with him are Scout Commissioner H. G. Field and Deputy Commissioner Harry S. Hayward. Below is the "commanding staff." From left to right they are Scout Commissioner H. Gooding Field, Deputy Commissioner Harry S. Hayward, Scoutmaster George C. Potter, Robert Anderson, L. Haehnen and W. H. Hutton.

NEWSPAPERMAN WHO SAW VIVID EVENTS IN WAR-ZONE VISITS HERE

H. T. Craven, dramatic and musical editor of the Philadelphia North American and a special writer for this big eastern newspaper during the stirring days in Paris just after the outbreak of the war, is a visitor in Honolulu. He has been here for a month on his wedding trip and says that the "Isles of Peace" are far more pleasant as a place of residence than the war zone.

Mr. Craven had the experience in Paris of seeing the German aeroplanes of the "Taube" type sail over Paris at the time when the Germans were sweeping down from the North after brushing aside the Belgian resistance. "You couldn't believe they were actually hostile aeroplanes dropping bombs into Paris," he said. "Yet they were bombing the city while I was there. When the Germans got seven miles from Paris I started home."

He stayed in the French capital until it became evident that special writers had small chance of seeing any actual fighting and that the big news could be "covered" by men securing the official bulletins. After doing some special articles on Paris in war time—human interest stories—he left for Philadelphia. He is now taking his first real vacation in fifteen years and expects to take most of a year to it.

Sailing next Tuesday for the coast he will take a steamer there for Tahiti and expects to write some articles about Papete, the French port which was bombarded by the German cruisers Gneissau and Scharnhorst. He will return to Philadelphia in August, about the time the busy theatrical and musical season begins.

Mr. Craven says he likes Honolulu greatly and has enjoyed his stay here immensely.

MAY-DAY FETE ON CAMPUS OF PUNAHOU WILL BE PICTURESQUE

The members of the Free Kindergarten and Children's Aid Association are planning an interesting entertainment for the afternoon of May, to be held on the Punahou campus, to which an admission fee of twenty-five cents will be charged.

It has been the custom in years past for the various kindergartens in the city to unite for a May-day festival. In recent years, as an aftermath of the twenty-second of February parade, the children have introduced costumes or have trimmed their wagons, carts and tricycles and marched proudly around the grand stand at Thomas Square to the rhythm of their own loved songs played by Captain Berger's band.

The public has always been greatly interested in these miniature parades and the association hopes the plan for this year will enable a larger number to witness comfortably the children's May-day party.

REPORT PRINZ EITEL MAY INTER.

WASHINGTON, D. C., March 13.—A time limit within which the German auxiliary cruiser Prinz Eitel Friedrich, which put in at Newport News for repairs, must either depart or intern for the duration of the war has been set and communicated to the German commander.

Confidential official reports, the general purport of which is known, have it that the vessel undoubtedly will inter-
